

## HIRING

**Job Role:** Trainee Software Tester

**Location:** Bangalore

**Salary :** Upto 3 LPA

**Duration:** Full Time

**Qualification:** Any Graduation

**Year of Passout:** 2021, 2022 & 2023

**Bond :** NO

### **Responsibilities:**

- Test server and client-side application modules that were developed using SQL & Microsoft .Net technologies.
- Analyze software requirements, create comprehensive test scenarios, test cases and test beds to test the software that implements those requirements.
- Take full responsibility for the deadlines and the quality of the software modules that are assigned to you.
- Follow, without fail, all software testing best practices laid out by the organization.

### **Skills**

- Good analytical and problem-solving skills. Specifically, the ability to create all possible combinations of input to a program that will result in all possible outcomes (both success and failure)
- Great communication skills. both verbal and written, and unafraid to speak up.
- Must be able to program in SQL – both inserting data (creating test-beds) and querying databases in Microsoft SQL Server.
- Deep understanding of software QA methodologies, tools and processes
- Well versed in Manual Testing and should have basic knowledge in automation testing
- Basic knowledge of C# expected.
- More important than anything, we need people who are committed to constant improvement of their skills and willing to put in the necessary work to get there.
- Must have attention to detail, absorb and follow software testing best practices that are laid out.
- If you have been a kid that broke every toy they ever played with, then it is highly likely you are a great fit. We need you to break our software.
