

## HIRING

**Job Role: Associate ADAS Software Engineer**

**Location:** Bangalore

**Salary :** INR 2.4 to 3.0 LPA

**Duration:** Full Time

**Qualification:** B.E / B.Tech, M.E. / M. Tech (ECE, Electrical and Electronics, Computer Science, Mathematics, Data Science)

**Year of Passout:** 2021 & 2022

**Bond :** NIL

### Job Description

- Develop cutting-edge Path Planning & Optimal Control Algorithms in C++/Python.
- Formulate and Understand planning & control algorithms.
- Strong coding practices using OOPS, DSA and Design Patterns.
- Execute Algorithms for HIL, SIL testing using MATLAB/Simulink.
- Read and understand mathematical formulations for various algorithms and techniques.

### Skills:

- Fundamental Engineering Mathematics
- Dynamics & Control
- Motion Planning
- Computer Vision
- Deep Learning (Fundamentals)
- Python (Data Structure & Algorithms, OOPS)
- C++ (Data Structures & Algorithms, OOPS)
